

Eligibility Reason Setup

The Eligibility Reason Setup is used to setup eligibility reasons that can be selected when adding a new member to the system. The field can be viewed or file maintained afterwards (if needed) by selecting the **Eligibility** field under Member Information.

A maximum of 12 reasons may be entered. Each reason has a maximum of 65 positions.

The screenshot shows a software window titled "Datamatic VIEW" with a subtitle "Eligibility Reason Setup". The window contains 12 numbered text input fields, labeled "1:" through "12:". The first field is active, with a cursor. At the bottom right, there is a "Save" button. There are also icons for a folder and a printer in the top right corner of the window.

Select Save when finished.
